The New York Herald says: Since the unprecedented flood in the Ohio the idenay, been seriously advanced that climate changes are going on and Phat the desolation of sturrelloods will become greater through an increase in the Jamount of the annual rainfall. The theory of an increase in the yearly precipitation over the Ohio Valley or any part of the country is without foundation in observed facts.

country is without foundation in observed facts.

While, therefore, fears of a considerable climatic change in this section may be dismissed by the present generation, the recent inundation should teach the people an important lesson. All the great Ohio froods on record have occurred in winter, showing that an indespensible factor of the phenomena is the melted smowfall. The lands publicet to such everyflows as those of 1832 and the last two floods should therefore be reserved for such cross only just on or require to be autumn sown. If this precaution is observed hereafter the inundations will be compartitively harmless to agricultural interests, for the high water will always recede, as it has done this year, in time for planting all spring and summer crops.

The Peculiar Old Mystery!

The Peculiar Old Mystery!

It was one of the peculiarities of the old-fashioned Doctors that they never would tell patients what they were prescribing for them. They said it would do the patients no good to know, and that it would only be gratifying a foolish curiosity. In order to keep patients from knowing, they would write the prescriptions in dog: Latin, so that most patients could not read them. All that sort of thing is now over. The patient wants to know what he takes. He is weak, and wants to be strong, or he is dyspeptic, and wants to digest well. Or he has a troublesome liver which he wants to put to rights. So he takes Brown's Iron Bitters about which there is no mystery at all. This is the best preparation of iron in the world, in combination with gentle yet efficient tonics. If gives strength. It banks up entechded systems. It enriches impovershed blood. It removes semiliniae weaknesses, It casts out debility. It is what you want, and your druggist has it. 2
